**November  
2023**

Date of installation

**22,400 ETB**

Total cost paid

**100%**Loan percentage paid  
back within 8 months  
of installation

The Energy for Rural Start-Ups initiative, a joint venture between Caritas Switzerland and Power-Blox AG, pioneers rural electrification in Ethiopia. Utilizing Swiss-developed Powerblox (PBX) swarm battery technology, it aims to provide last-mile connections to off-grid rural households by applying a nano-grid approach, bridging gaps between solar home systems and larger mini-grids. In its first phase June 2023 - January 2024, 87 Powerblox were installed in 49 locations, empowering 14 micro-enterprises, 2 cooperatives, and 6 public institutions in rural areas of Oromia Region. With a 100% Powerblox payback rate within 10 months, the initiative demonstrates business viability and fosters economic growth, household resilience, and social inclusion. Scaling up, the aim is to install 7,000 Powerblox, electrify 100,000 households, 1,000 health centres, and empower 5,000 SMEs, supported by a sustainable financing and operation model and public institutions.

# Top appliances & revenue streams

## HOUSEHOLD ELECTRIFICATION

Providing reliable and affordable electricity to households, empowering them to power their daily lives.

Light bulbs

## MOBILE CHARGING SERVICES

Offering convenient and accessible mobile charging solutions, catering to the growing demand for mobile connectivity.

Charging station

## Key Achievements

**3** Additional jobs created

**From 0 to 2600 ETB**

Weekly income increase since electrification

**1** Lamps powered for own use

**From 0 to 260**

Weekly customer increase related to energy

**1** Lamps powered for income

**2** Total lamps powered

**30** Mobile phones charged per day

The Bakalcha Bari Restaurant provides essential services and drives economic development in the area. Through household electrification and mobile charging services, the restaurant not only improves the quality of life for local residents but also contributes to increased connectivity and access to information.

The creation of additional jobs further strengthens the restaurant's role as a driver of local employment and economic growth.

## Join the effort

Partner with us to revolutionize rural electrification in Ethiopia. Learn more about our initiative and impact and discover how to get involved on our website today.

\*The PBX are currently 50% subsidized to support the pilot phase and simulate the landing price during commercial scaling.
