Number of locations

**June  
2023** Date of installation

**89,600 ETB**  
Total cost paid

**100%** Loan percentage paid  
back within 5 months  
of installation

The Energy for Rural Start-Ups initiative, a joint venture between Caritas Switzerland and Power-Blox AG, pioneers rural electrification in Ethiopia. Utilizing Swiss-developed Powerblox (PBX) swarm battery technology, it aims to provide last-mile connections to off-grid rural households by applying a nano-grid approach, bridging gaps between solar home systems and larger mini-grids. In its first phase June 2023 - January 2024, 87 Powerblox were installed in 49 locations, empowering 14 micro-enterprises, 2 cooperatives, and 6 public institutions in rural areas of Oromia Region. With a 100% Powerblox payback rate within 10 months, the initiative demonstrates business viability and fosters economic growth, household resilience, and social inclusion. Scaling up, the aim is to install 7,000 Powerblox, electrify 100,000 households, 1,000 health centres, and empower 5,000 SMEs, supported by a sustainable financing and operation model and public institutions.

# Top appliances & revenue streams

## HOUSEHOLD ELECTRIFICATION

Providing reliable and affordable electricity to households, empowering them to power their daily lives.

Light bulbs

## MOBILE CHARGING SERVICES

Offering convenient and accessible mobile charging solutions, catering to the growing demand for mobile connectivity.

Charging station
